Premium Quality 3-Port Multimedia HDMI Switch

Tired of manually plugging in and swapping HDMI cables to your HDMI Media devices such as TVs, BluRay, Game Consoles and TV reception boxes? Looking for a low cost but effective remote HDMI Switching capability while adhering to the latest HDMI 1.3 specifications?

Introducing the new C-HMDI-31 Remote Switching box from Dynamode. Compact in design and totally self-powered by the HDMI cables themselves, the C-HMDI-31 allows up to 3 separate HDMI devices to be connected to a single HDMI Output device such as LED/LCD TV or Monitor.

The HDMI mini switch routes high definition video (in multiple resolutions up to 1080p) and digital audio from any one of several sources to display units.

Compliant with up to HDMI Version 1.3, the C-HMDI-31 supports up to 1080p resolution, Deep Colour processing and high-speed bandwidth of up to 2.5Gbps, ideal for fluid Game Play and life like Movie and Sound reproduction.

Supplied with an easy-to-use Remote Control for effortless HDMI switching, or if preferred, manual Switching from the Switch Box itself, the new C-HMDI-31 is your ideal partner for your HDMI devices.
